NOTE FOR: Colonel Joseph W. Ralston, USAF

Joe --

Attached is a revised draft of the IIM which we have discussed. As you will note, it includes most of your suggestions. The tables are still blank because a decision has not been made about the best way to present the data. Naturally, we will discuss the matter with you before publication.

The draft in its present form is being sent to the DCI for his approval to send it to the NFIB representatives for coordination. It will probably be two to three weeks before the first meeting takes place. Prior to that time, we will make a decision about the tables in coordination with you.

I continually appreciate your cooperation on both the technical and security side and will welcome any of your comments. As an assist to you, I am also attaching the earlier draft which includes your comments.
